

## Redlynch Valley – Road Reconstruction and Widening – 2014

Cairns Regional Council (Contract No. PCT 14189)

### Project Description

Duplication of a 2-lane road to a median-separated 4-lane road. Excavation and placement of 2,600m<sup>3</sup> of road base and approx. 250 tonne asphalt. Installation of kerbed medians, stormwater drainage, landscaping, linemarking and other traffic furniture.

### Job Specific Challenges

- Job was constructed under traffic on an extremely busy section of road with a number of specific requirements regarding lane closures around public holidays
- There was pedestrian/cyclist access along the road through the construction site

**Project Duration** 14 Weeks

**Contract Value** \$ 738,372

**Resources** Project Manager, Project Engineer (CQR), Project Supervisor, 1 x Foremen, 8 Site Staff, Graders, Excavators, various specialist sub-contractors
